PICNIC JULY 25th PENDLETON LAKE

A very successful meeting of the Valley Spring U.F.A. Local No. 77, and the Valley U.F.A. was held at the residence of Mr. and Mrs. J. A. Walte, south of Jarrow on Friday, July 13th. About 65 were present.

Full arrangements were made for their monster picnic to be held at Pendleton's Lake on Wednesday, July 25th. A very able and interesting report was given by Miss Jennie James, delegate to the Junior U.F.W.A. and U.F.A. convention held at Edmonton, after which lunch was served.

TEN YEARS AGO
From Irma Times, July 19th, 1918
Orange celebration on July 12th brought a big crowd to Irma.

Dance was held in the new Jones building, near McFarland's.

Miss Dora Fluewelling and Mr. R. J. Tate were married.

Hardy & Dickson completed new cement garage on East side of Main St.

A petition was being circulated for rural hospital.

Seventy-one tickets were bought from the local railway agent for parties attending the Edmonton Fair.

FIVE YEARS AGO
From Irma Times, July 18th, 1923
Several oil companies were drilling in the Irma Wainwright districts.

Dr. H. L. McInnis, secretary to Gratton Oil Co., passed away.

Memorial pulpit was unveiled in the Irma Church.

Mr. J. G. Clark was attending the Provincial Cattle Breeders Association at Edmonton.

Mrs. V. Larsen was visiting her parents in Minnesota.

Miss Lavina Sawden returned to Irma after spending a couple of weeks in Edmonton.

Wedding Bells

FRICKELTON - MURPHY

On Tuesday July 17th the home of Mr. and Mrs. M. K. McLeod was the scene of a beautiful and happy event when their daughter, Hazel C. Murphy, became the bride of Mr. Walter Nelson Frickelton, Irma popular druggist.

At two p.m. to the strains of the wedding march played by Mrs. M. L. Wright the groom escorted by his brother Earle of Wainwright, took his place in an alcove decorated with peonies. Then came the bride on the arm of Mr. M. K. McLeod and accompanied by her sister Mrs. Blakeley.

The marriage ceremony was performed by the Rev. M. L. Wright. The bride was beautifully gowned in light colored rose silk and carried a bouquet of roses and maiden hair ferns. Her travelling dress was blue silk.

After the ceremony a buffet lunch was served when the bride was toasted. The happy couple then journeyed to Wainwright where they caught the flier for Edmonton from whence they will go on a short honeymoon.

Upon their return Mr. and Mrs. Frickelton will reside in the house formerly owned by Mr. J. Tate.

NOTICE

The Gratton Coulee Live Stock Shipping Association will hold a meeting at Unity School, Monday, August 6th at 8 p.m.; Rosegarland School, Tuesday, August 7th, at 8 p.m.; and Poplar Hill, Wednesday, August 8th at 8 p.m.; Roseberry School, August 9th, and Albert School August 10th.

Speakers will be present from the Central Office to address the meetings.

M.D. BATTLERIVER COUNCIL MINUTES

Councillors of the Municipal District of Battle River No. 423 met in Council room, all members present.

Minutes of last meeting were read and on motion of Mr. Burton were accepted as read.

Moved by Mr. Santee that cemetery committee have power to act in regards to making improvements to cemetery. Cd.

Messrs Fischer, Burton and Smallwood reported on road inspections in Division 3.

Moved by Mr. Santee that reports of Messrs. Fischer Burton and Smallwood be accepted. Cd.

Messrs Santee and Dietrich reported on road inspections in Divisions 6 & 1.

Moved by Mr. Smallwood that reports of Messrs Santee and Dietrich be accepted. Cd.

Moved by Mr. Burrell that Mr. Santee be authorized to build road or road diversions between sections 18-45-7 and 13-45-8 and sections 19-45-7 and 24-45-8 and have survey made after. Cd.

Moved by Mr. Santee that this Council sell to Walter Adams, of Fabyan, the N.E. quarter and North half of N.W. quarter of 4-45-7-4 containing 233 acres more or less, for the sum of \$1,000.00, payable \$300.00 cash, \$350.00 December 1st, 1928 and \$350.00 December 1st, 1929, with interest at the rate of 7 per cent. per annum. Purchaser to be liable for taxation after January 1st, 1929. Cd.

Moved by Mr. Santee that Secretary correspond with C.N.R. asking that they open up crossing on main line of C.N.R. between sections 18-45-7-4 and 12-45-8-4. Cd.

Moved by Mr. Smallwood that Secretary write the General Superintendent of C.N.R., Edmonton, asking to have road fixed in right of way between sections 27 and 28-45-9-4. Cd.

Moved by Mr. Santee that the debt owed by Mrs. R. A. Bell for relief be charge against the land and added to the current taxes of Lot 5, Block 1, Townsite of Fabyan. Cd.

Moved by Mr. Burton that Secretary write the Calgary Power Co., stating that Council before passing resolution want a guarantee that poles will not be placed so that they obstruct private entrances into property. Carried.

Moved by Mr. Smallwood that Secretary instruct Messrs. McKenzie and Kenny that Council offered to settle with Mr. Miles for \$102.25 but he would not accept same. His taxes are still outstanding and penalty has been added, but Council are willing to pay him this amount as settlement at any time. Cd.

Moved by Mr. Burton that Council pay the C.P.R. \$726.06, being prices asked for in letter of May 26th, 1928. Carried.

Moved by Mr. Burton that the following accounts be passed and paid.

A. L. Dietrich—Coun. fees	\$83.00
J. J. Burrell—Coun. Fees	45.90
A. A. Fischer—Coun. Fees	69.00
W. A. Burton—Coun. Fees	107.80
G. A. Tripp—Repairs	6.70
Albert Olson—Repairs	8.10
Richardson Road Mach.—Mach.	44.00
J. D. Adams & Co.—Repairs	2.40
John Deere Plow Co.—Repairs	13.60
Western Steel Prod.—Culverts	50.72
R. J. Tate—Office Supplies	3.35
Richardson Road Mach.—Rep's	10.00
Canada Ingot Iron Co.—Culverts	51.35
Irma Times—Papers	24.00
Irma Motors—Lights	1.50
L. Guiltner—Cartage	.50

Carried.

Moved by Mr. Smallwood that the following time sheets be passed:

H. E. Mabey	\$602.00
H. E. Mabey	136.50
H. E. Mabey	451.00
H. E. Mabey	41.50
P. J. Harvey	\$84.06
P. J. Harvey	383.21
P. J. Harvey	270.87
P. J. Harvey	187.84
P. J. Harvey	214.16
W. Myers	574.50
W. Myers	208.18
W. Goodwin	114.50
W. Goodwin	312.65
W. Goodwin	288.00

Carried.

Moved by Mr. Burrell that Council give the Secretary one month leave of absence with full pay and \$50.00 per month for substitute during absence and that Reeve be empowered to extend time if necessary. Cd.

Moved by Mr. Smallwood that next regular meeting be waived and next

V. BOOHER TO STAND TRIAL FOR MURDER

With the Orange hall at Mannville again crowded with more than 400 persons, Vernon Booher, 20, held as the slayer of his mother, Mrs. Eunice Booher, his brother, Fred, and two hired men, Babziel Goumby and Wasyl Roky at the Booher farm, north of Mannville, on July 9th, was committed for trial by Police Magistrate Pilike Wednesday afternoon.

Evidence at the preliminary hearing was much the same as given at the inquest held Tuesday evening when the coroner's jury returned an open verdict of murder by persons unknown. Booher's arrest followed the inquest.

meeting be left to call of chair. Cd.
By-Law No. 24.

A By-Law of the Municipal District of Battle River No. 423 to authorize the expenditure of more than \$200.00 in the year 1928 for the purpose of purchasing a maintainer.

Whereas it is necessary and expedient for the Municipal District of Battle River No. 423 to purchase a maintainer;

And Whereas the cost of said maintainer will require an expenditure of over \$200.00 in the year 1928;

Therefore the Council of the Municipal District of Battle River No. 423 enacts as follows:

That it shall be lawful for the Council of the Municipal District of Battle River No. 423 and they are hereby authorized and empowered to make an expenditure of \$255.00 in the year 1928 for the purpose of purchasing a maintainer.

Done and passed in Council assembled this 10th day of July A.D. 1928.

Moved by Mr. Burton that By-Law No. 24 pass its second reading. Cd.

No. 24 pass its first reading. Cd.

Carried.

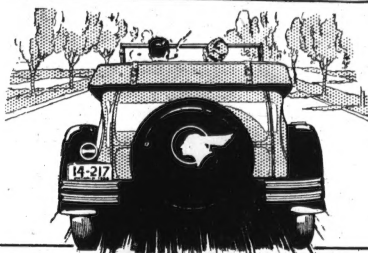

Moved by Mr. Smallwood that By-Law No. 24 pass its third reading. Cd.

Moved by Mr. Santee that this Council have a By-Law drafted restraining all domestic animals from running at large in Division 1, same to be approved by the Minister of Municipal Affairs. Cd.

Moved by Mr. Burton that appeal of C.P.R. against Wild Land taxes on N.W. 3-45-8, N.E. 35-45-9, and N.W. 9-46-9 be allowed. Cd.

Moved by Mr. Burton that appeal on North half and S.W. quarter of Section 21-46-8 be allowed. Cd.

Moved by Mr. Burrell that Council adjourn. Cd.

Identifying the "Finest of Low Priced Sixes"

THE Pontiac emblem, now a familiar sight on every highway, is the distinguishing mark of the world's finest low-priced six.

It identifies the smoothness of Pontiac's Six-cylinder engine, with its new improved G-M-R cylinder-head . . . the enduring qualities of Pontiac's sturdy chassis . . . the easy-riding comfort of Pontiac's Lovejoy Shock-Absorbers . . . the countless refinements of engineering and construction that spell "quality" in a motor-car.

And, just beside the hood of the New Series Pontiac Six is another symbol of a fine automobile . . . the "Body by Fisher" emblem, with all that it implies of luxury, craftsmanship and stylish beauty. Pontiac is the lowest-priced six which can claim the distinction of "Body by Fisher".

Whenever you see the familiar "Indian Head" emblem, and say "There goes the New Pontiac Six", you are identifying, beyond doubt, the world's finest of low-priced sixes.

Notice to Wheat Pool Members

Whereas climatic and other conditions over which the farmer had no control, have prevented a number of pool members from delivering their wheat prior to the date set for cut off, July 16th, 1928, the Board of Directors by resolutions passed this 17th day of July, 1928, have authorized that any street wheat delivered at, or any carload lots billed out of country houses on or before July 31st, 1928, be settled for on a basis of the 1927-28 pool prices. Members delivering wheat between the dates July 16th and August 1st will receive the initial payment on the 1928-29 initial payment schedule, but an adjustment will be made by the pool head office which will bring the payment up to the 1927-28 pool average price.

Alberta Wheat Pool

The Interesting Story of Three British Immigrants Who Have Met With Success In Canada

Premier King pointed out the other day that those are, in the Canadian Government, three ministers who came to Canada as British immigrants: Mr. Dunning, from England; Mr. Forke, from Scotland; and Mr. Heenan, from Ireland. In a cabinet of eighteen members, three Old Countrymen hold the important portfolios of Railways, Canada, Immigration-Colonization, and Labor. And they came to the Dominion without financial backing.

The experiences of Mr. Dunning, Mr. Heenan and Mr. Forke are of interest not only because they represent England, Ireland and Scotland, but because they set their feet upon somewhat different political ladders. Mr. Dunning climbed up by way of his prominence in business and agricultural organizations; Mr. Forke, by way of agricultural and municipal experience; Mr. Heenan, by way of municipal and labor activities. Mr. Dunning achieved political prominence at an early age; Mr. Heenan in middle life; Mr. Forke, as an older man. They afford three interesting and quite different studies in immigrant success.

Mr. Forke came to Canada in 1882 at the age of twenty-two, took up land in a remote part of southwest Manitoba, and in five years was interested himself actively in municipal affairs. He was twenty years reeve of Pipestone Village eleven years secretary of the Manitoba union of municipalities and finally its president. But he had been in Canada thirty-nine years and was sixty-one years of age before he was elected to the House of Commons. The following year he became House leader of the Progressives and in 1926, at the age of sixty-six became a minister in the King Government.

Among the immigrants who came to Canada in 1902 were Peter Heenan and Charlie Dunning. Heenan was 28; Dunning only 17. Heenan, born in Ireland had been schooled in England, and for a time a professional football player, had been working as engineer and driver for a construction company in Costa Rica, had been attacked by yellow fever, and had examined the rival claims of Canada and South Africa as to healthier climate. He chose Canada, tried an Alberta ranch, preferred being a locomotive engineer, became an alderman of Kenora and chairman of the Association of Locomotive Engineers, and 17 years after coming to Canada was elected to the Ontario Legislature. Six years later he was elected to the Dominion House from a constituency larger in area than Great Britain. And in 1924 years after his arrival in the Dominion, and at the age of 52, he became Minister of Labor.

Dunning's career was meteoric. He told the House the other day how on first coming to the Dominion, he worked for the summer on a western farm at ten dollars a month. The next year his father came. And by working at wages which never exceeded a dollar a day and board (the equivalent of perhaps two dollars), they laid by, in a summer and winter, enough money to bring out the mother and five sisters. But at 26, nine years after his arrival, Dunning appears in the picture as vice-president of the Saskatchewan Grain Growers' general manager of the Saskatchewan Co-operative Elevator Company, and member of the Canadian Council of Agriculture. At 34 years of age he became Provincial Treasurer of Saskatchewan; then Premier of that Province, and in 1926 became, like Heenan, a Minister of the Dominion Government—age only 41.

In these three careers there is a lesson of hope for every immigrant and every intending immigrant. Not everyone can hope to be a Cabinet Minister; but all can hope for a greater degree of final comfort and prosperity than they are likely to attain elsewhere.—Toronto Star.

Demand For Canadian Hay

The opinion is generally expressed that a fair quantity of imported hay is likely to be wanted if this year's Canadian crop is satisfactory in quality and price, writes Trade Commissioner Harrison, at London, in the forthcoming issue of the Commercial Importers' Bulletin. The hay crop was for a yield 10 per cent. below the average, but rather better than last year.

Passenger on a branch line railroad (to conductor)—Why does the engine always let out such a piteous howl when we pass this spot? Because it was here the engineer first met his wife?

ENGLISH BULLDOG CHAMPION

Here is Kippa Jock, an English bulldog champion, purchased in England by Tieg P. Sprakes, president of the English Bulldog Club of Canada. He actually cost Sprakes \$1,905.25 lost down in Toronto, where the owner's kennels are located. Before he left England he was a winner at every show at which he was shown—and he was shown at all the most important shows. Kippa Jock will be shown at all the coming shows in Canada.

The Dangerous Fly

One Of Most Prevalent Disease Spreaders Say Doctors

The physicians are beginning again to talk about the fly. They should be a friend to him; he promotes their business. But conscientious physicians are devoting a good deal of effort to preventing the spread of disease, and they recognize the fly as one of the most prevalent disease-spreaders of our region. That was an interesting experiment recently reported. They washed a fly and found by count that its bath water contained 1,230,000 bacteria that were not in it before the process.

Probably that fly was no filthier than the average run of the members of his family. The conclusion is that all flies deserve swatting; that all unwashed flies should be kept out of houses by screens, and that all places suspected of breeding flies should be cleaned up.

Canada Stands Fifth In Milk Production

United States At Head Of List With Germany Second

The eighteen largest milk producing countries of the world have, according to latest returns, 67,822,743 milch cattle. Of these the United States leads with 22,280,000, Germany is second with 10,066,317, then France, 7,701,410, Great Britain and Ireland, 4,358,270, and Canada is fifth with 3,891,311.

The total output of butter is 1,531,851,758 pounds of which Canada makes 275,209,287 pounds, and of cheese 2,278,913,895, and of this Canada's share is 172,248,373. The United States is head of the list in butter-making, with Canada sixth, and Germany leads the cheese list with Canada fifth. The per capita consumption of milk in the United States is 55.3 gallons, and in Canada 43.2 gallons.

Some men are so busy that they have no time to enjoy prosperity.

Poultry House Flooding

Cement Floors Give Trouble On Account Of Dampness

Cement flooring for the poultry house has the merit of durability and it does not harbor vermin, but many poultry keepers complain that it gives trouble in winter and spring on account of being continually damp. At the Charlottetown Experimental Station the cement floor was given a coat of roofing paint but it did not reduce the dampness to any appreciable extent as the litter soon became damp and unfit for use almost as quickly as where the floor was left without treatment. In another house a wooden floor was built and laid in sections two inches above the cement. This treatment, according to Mr. J. A. Clark, the superintendent, in his report for 1927, was very effective, the section remaining dry and requiring cleaning only about half as many times as the other sections of the same house that had the cement floor only.

E. P. Ranch Ships Stock South

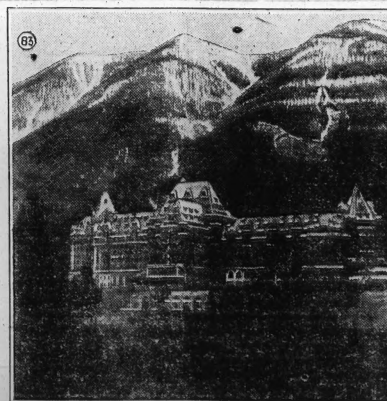

Important Shipment Of Pure Breed Stock Goes To California

Another important stock shipment has left the E. P. ranch for the Kenwood stock farms, Kenwood, California. This is the third shipment made to the famous stock centre, and consisted of seven cows, five Short-horn bulls, and five yearling bulls. Some of these were stock imported from the royal farm in England. James Watson, of the E. P. ranch, accompanied the bunch as herdsman, and will look over various prominent stock farms while in California.

Willing To Oblige

Bank Clerk—"But, madam, you will have to be identified before I can cash this cheque for you."

Fair Caller (blushing furiously)—"Oh, I just hate to do it, and George would be dreadfully angry, but I have a love letter here which describes me fully if you would care to see it."

WESTERN HOTEL NOW COMPLETE

Still more majestic, standing alone, the Banff Springs Hotel, guardian of the Canadian Rockies, is again prepared for the summer rush of tourists and passing travellers. Many alterations have been made in the construction of the hotel while an additional wing has been built.

Now swimming pools are a still further attraction, both warm and cold baths being built. Altogether there is a splendid and dignified atmosphere surrounding the new Banff Springs Hotel, which is rather that of an old-world mansion than of an hotel.

The old golf course has been renovated and enlarged from a nine hole to an 18 hole course, under the encircling shadow of the mountains.

Trade Within The Empire Is Being Furthered Through Efforts Of the Empire Marketing Board

The development of trade within the Empire is a matter which, during recent years, has been given the very earnest attention of all those countries making up the British commonwealth of nations. It is felt that the goods or products of intra-Empire trade will open up opportunities for trade relations that will not only serve to bring more closely together the various parts of the Empire, but as well, afford such direction to production and consumption of those commodities for which the various countries concerned are best suited to produce, that the well-being of the whole Empire will be greatly added to. With this object in view, the Imperial Economic Conference, of which Canada is a member, in 1923 appointed the Imperial Economic Committee to study the possibilities for doing something to stimulate marketing within the Empire. As a result of their first and subsequent meetings, the Empire Marketing Board was created.

The Empire Marketing Board as constituted is an official non-political body, and the membership is so arranged that, though limited for the sake of efficiency, no part of the Empire is unrepresented, and its chief function is that of advisor to the Secretary of State for Dominion Affairs, in the administration of the annual vote of £1,000,000 as granted by the Parliament of the United Kingdom. The Imperial Economic Committee and the Empire Marketing Board are closely related, partly because the Empire Marketing Board is charged with the endeavor to give effect within the terms of the Vote, to many of the recommendations of the Imperial Economic Committee and partly because certain men are members of both bodies.

The Committee proposed in the first instance that a very considerable proportion of the grant should be devoted to promoting Empire buying in the United Kingdom, and a minor portion reserved for the assistance of research. Later, the Board modified in the direction of an increased expenditure for the assistance of research.

The value of consumer publicity early engaged the attention of the Board and it was with the object of creating consumer interest in the Empire that the Board at the outset dealt with a publicity problem, both novel and difficult. The Board appreciated the fact that its main function in the field of publicity was to create a background against which individual governments, or countries, or trading interests could throw into relief the claim of those communities in which they were interested. This principle has been permanently adopted. Thus, while the Board may draw attention in general terms to the proper seasons to particular varieties of Empire produce, it is not called upon to undertake or subsidize special campaigns on their behalf.

The effect has been that the Board has been engaged less in furthering directly, the sale of individual articles of Empire produce, than in creating a consciousness of Empire among the public that might thus be led to respond more freely to the direct appeals of other advertisers. Already, there are evident signs up and down Great Britain of a fresh and growing interest in the possibilities of Empire development and trade, and as well, an obvious preference for Empire products where quality and cost are in proper relation.

Consumer interest in the work of the board is now growing with amazing rapidity. Within recent months, approximately 15,000 schools have applied to the Secretary to be placed on the regular mailing list to receive the Board's posters as often as they are issued. Already 1,140 poster-boards or frames have been erected in different parts of the country, and a further 160 frames are in course of erection. To indicate the interest and value placed in this Empire publicity scheme, we cite the British Electrical and Allied Manufacturers' Association, which has made proposals involving the erection of sixty advertising frames in their factories, so that the Board's objective may be displayed for the benefit and education of the vast army of industrial workers. Moving picture centre panel poster frames now being considered for erection at the chief railway stations in London, so as to reach the eyes and arrest the attention of the millions moving in and out of the largest single consuming area in the world and Empire. The effectiveness of such an elaborate publicity effort in promoting buyer action is quite apparent. Nevertheless, it should be repeated that the whole scheme would be worse than futile if in urging the policy of voluntary preference, we would be advertising inferior goods and thus we would be doing it for the goods or products on offer from Empire sources are not adequate, both in quality and volume to meet whatever competition they are likely to encounter.

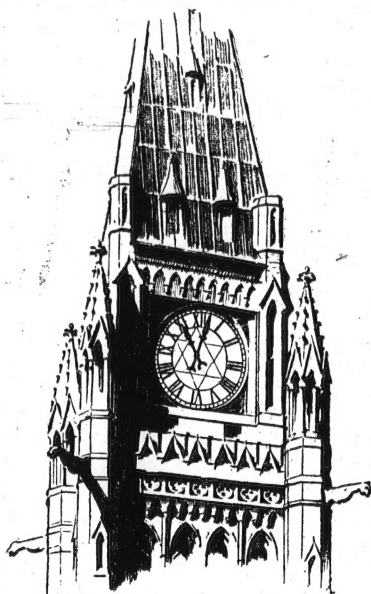

Those of us who have been privileged to visit the leading market centres in Great Britain and those of us who have had to do in a practical way with the sale of Canadian products in the British market, realize how sound is the idea that quality and volume represent the only conditions on which Empire produce may be given a privileged place in the consumer centres of Great Britain. And further, it is necessary that in the matter of volume, the same shall be uniform and regular. None understands better than Canada, with her long winter months and her comparatively short growing season, the difficulties encountered in developing uniform product volume. Nevertheless, regularity of volume is essential to obtaining voluntary preference, and we have to face the issue as it stands; and we have successfully overcome greater difficulties in times past.

The Empire Marketing Board as an aid in fostering Empire trade, deserves our full support and with the widening of the scope of its activities from time to time its growing influence on our trade opportunities make it the more essential that we should give the work of this Board representing the efforts of its Imperial Economic Committee on our behalf, the full measure of our support. On the recommendations made by the Empire Marketing Board to the Committee, beneficial legislative enactments are likely to be made from time to time and it is important that our agricultural and commercial interests keep themselves fully posted on the work of this Committee.

Poison For Insects

Both Liquid and Dry Applications Are Recommended

Practically all plant insects that live by eating the leaves can be destroyed by poisoning. In his new bulletin No. 99, of the Department of Agriculture, at Ottawa, "Insects of the Flower Garden and Their Control," Mr. Arthur Gibson, the Dominion Entomologist, recommends both liquid and dry applications. When Paris green is used, 1 ounce of Paris green is sufficient for forty gallons of water. Where only small quantities are needed a teaspoonful of Paris green and the same quantity of lime are the proper quantities for a pail of water. For dry applications a pound of Paris green should be mixed with 20 pounds of land plaster, slaked lime, or other perfectly dry powder. This preparation should be dusted on the plants early in the morning while the dew is still on. Arsenate of lead is in some ways preferable to Paris green because it does no injury to the foliage and will not wash off easily by rains. The powdered arsenate of lead is recommended in the bulletin to be used in the strength of two pounds to 40 gallons of water. Where only small quantities are needed a teaspoonful of Paris green and the same quantity of lime are the proper quantities for a pail of water. For dry applications a pound of Paris green should be mixed with 20 pounds of land plaster, slaked lime, or other perfectly dry powder. This preparation should be dusted on the plants early in the morning while the dew is still on. The Victory Tower of the Dominion Parliament Building at Ottawa, from which the blaring message of the carillon rings forth.

EVERY TWO MINUTES OF EVERY BUSINESS DAY... SOMEONE IN CANADA BUYS A NEW GENERAL MOTORS CAR

SINCE the days of Confederation, General Motors of Canada Limited has been supplying Canada with transportation. Each year as requirements have multiplied, the scope of General Motors service has widened... the quality of General Motors cars has steadily improved. Each year more Canadians have looked to General Motors for better automobiles, until now, every two minutes of every business day, someone in Canada buys a new General Motors car. These cars are bought by people you

know... by people like yourself... for the very reasons which would guide you in the choice of a car.

They are bought because they are the product of the most progressive organization in the world's most progressive industry... because they reflect the General Motors policy of constant advancement... because they are better cars.

They represent the latest developments of the world's leading automotive research

laboratory, offering these developments to the public as soon as they become available. They are proved in advance, at the expense of General Motors, not the public. They are better cars because they are Canadian cars.

And they embody greater value because of General Motors money-saving methods of quantity buying and volume production. This popularity of General Motors cars holds more than a passing interest for the Canadian car buyer... for General Motors utilizes increased demand to reduce production costs and to offer still more outstanding automobile value.

Mr. and Mrs. James Murray and Mr. J. Neal were at Loughheed Sunday afternoon.

This is Edmonton Fair week and there should be a good shower before the end of the week.

Moonshine Case.

Wednesday afternoon, Mr. M. D. Askin, J. P. held court in Irma when Sergeant D. G. Stewart, of the Wainwright detachment A.P.P., presented six young men, residents of the Irma district, who he had charged with consuming liquor in a public place. The accused all pleaded guilty and were fined the minimum fine which is \$20. and costs. The conviction resulted after the father of one of the boys had complained that his son had arrived home Saturday night much under the influence of liquor. Upon investigation the police found that the boys had been consuming a brand of moonshine that had a very bad effect on those that consumed it. Monday afternoon they visited the farm of August Weinlich, some eight miles north of Irma, where the boys had admitted they secured the moonshine. On this farm the officers secured a still consisting of a ten gallon can with a copper worm and forty five gallons of mash from which the moonshine is distilled. Mr. Weinlich was taken to Wainwright Wednesday afternoon and his trial was set for Thursday before Police Magistrate Lailey. Sergeant Stewart intimated that he had several complaints about the illegal sale and consumption of liquor and that he would solicit the co-operation of anyone who wished to see the law enforced, when he would do everything possible to see that the law was enforced.

WAINWELL STARTS

ON No. 2 OIL WELL

Derrick Ready for Early Commencement in Wainwright Drilling

The Wainwell Oil company now have their 90 foot derrick complete and are arranging machinery under it for early commencement of work on their No. 2 well. This well will also be within a few hundred yards of the refinery which they lately took over from the Kling Del company. Gas and water pipe are now laid from the site of their producer while a production line is being run to the refinery. It is also understood that arrangements have been entered into whereby the Gypsy Oil company with their Absher process of refining will consolidate in the refining work of the Wainwell Oil company. The Gypsy Oil company now refine at the casing head the production from British Petroleum No. 3-B and Edmonton-Wainwright.

T. J. Sugars has been in the field arranging for the deepening and cleaning of British Petroleum No. 4 producer.

Saska-Wainwright have been drilling on hard formation but are now making good headway again and nearing the 400 foot level.

Derrick material for the Wainwright Dome company's No. 2 well is being hauled up to a site south of town where it is understood drilling work will be inaugurated as soon as possible.

C. R. Mazy, geologist, has been in the Wainwright field for several days for the purpose of covering the field geologically for United States interests, presumed to be the Canadian Petroleum. He is now in the Viking field examining structure there.

SPECIALS ADDED

TO IRMA FAIR

The Irma Branch of the Women's Institute will give a special prize for the best picture of a farm, to be drawn by a school child in grades 5-6-7 or 8, to be on a drawing pad 9x12 with one inch margin and not colored and not to be copied from any other drawing or picture. The first prize will be \$3.00 and second \$2.00. A special prize of \$5.00 will be given at Irma Fair by W. Cole for the best pair of chickens hatched from eggs purchased from him. Must be at least three months old at time of exhibition.

Heard at the ladies social: Mrs. _____ tells everything she knows. "Yes, but it wouldn't be so bad if she'd stop there." Tip.

CHURCH NOTICES AND ACTIVITIES

SUNDAY SCHOOL

The Library had a good start last Sunday. Come to Sunday School at 11 A.M. and pick out a book to read. The one you receive it and the date you return it, will be stamped in the Librarian's note book.

The following is the present list of books:

"The Motor Boat Boys" by Arundel, "The Boys Allies" Drake; "Flag of Truce" by Wetherell; "The Transfiguration of St. Paul" Kingley; "The Flying Boat" Strang; "The Bungalow Boys" Forrester; "The Household Troops" Debenham; "The Motor Rangers" West; "The White Company" Doyle; "Two Boys of the Battleship" Webster; "Silas Marner" by Eliot; "God's Fellow Workers" Keenleyside; "The Settlers in Canada" by Marryat; "Boy Scouts" Durston; "Almost Lost" Amshay; "Yarns for Boy Scouts" Powell; "The Children of Dickens Farm" Kings; "Worldly Conformity in Dress" Morden; "The New Chivalry in Japan" Saunby; "A Queer Letter Carrier" The Werner Co.; "Friends Though Divided" Henty; "Swift and Sure" Strang; "The Boy Knight" Henty; "The Motor Ranger Cloud Cruiser" West; "The Motor Rangers Lost Mine" West; "The Motor Rangers Touring for the Trophy" West; "The Pretenders" Fletcher; "The Girls of Kings Royal" Meade; "The Rumbles of a Rat" A. L. O. E.; "The Bungalow Boys in the West" Forrester; "The Motor Rangers Through the Sierras" West; "Our Young Aeroplane Scouts" Porter; "Paul Prescott's Charge" Alger; "The Knights of the Trail" Chester; "The Boys of Wynpost College" Harrison; "Fennie's Bible"; "Slow and Sure" Alger; "Parkhurst Boys" Reed; "The Strange Adventures of a Young Sailor" Higginson; "The Bungalow Boys Marooned in the Tropics" Forrester; "The Bungalow Boys Along the Yukon" by Forrester; "The Young Midshipman" Henty; "The Call of the Beaver Patrol" Sherman.

Sunday School News

We miss Mr. and Mrs. Locke from Sunday School. They are holidaying at Banff. Mrs. Osterhout is taking Mrs. Lock's class.

Sunday School Holiday Mail Bag Do not forget, when you go away, to drop your card to the Sunday School Secretary, Mrs. Schon, telling her where you are and when you expect to return, etc. We expect a number of cards in that mail bag next Sunday.

AVONGLEN NEWS.

Friday P.M. the parents, teacher and pupils gathered at Avonglen for the usual school closing games, races, etc., which took up the early part of the afternoon, prizes being given in each event for the winners. Lunch was served after which a beautiful purse was presented to Miss Bennett by little Doris Morgan on behalf of the pupils. Miss Bennett's response gave evidence of the strong bond of affection that has been woven between teacher and pupils and parents in the past three years in which time many sorrows and joys have come to the district and in which Miss Bennett's help and sympathy has been of such sterling quality the district as a whole feel she is indeed one of our own.

Outside of his the progress of pupils has been rapid and most satisfactory as Miss Bennett gives her school work first place in every case, and if she is fortunate in getting the position she wishes. Avonglen, although wishing her the best, will be sorry not to have her back. However, we have her promise that should she take a rural school it will be Avonglen which leaves us still with a little hope for her return.

Marjorie and Helen Bennett went to Edmonton on Wednesday to visit friends before returning to their home in Edmonton.

Mr. and Mrs. C. H. Allen and daughter Fay of Strome, have been visiting with the Allen and Chase families of Irma the past week.

The Avondale U.F.A. ladies gathered at the home of Mr. and Mrs. Earle Prior on Saturday and presented them with a silver fruit dish, several others also presented gifts. A very pleasant afternoon was spent after which the visitors opened lunch boxes and with Mrs. Prior served a delicious lunch. All went home wishing Mr. and Mrs. Prior a long, happy and prosperous life.

Mrs. New and Mrs. Haun returned from Edmonton on Saturday. Little Helen Bennett accompanied them to visit her sister Marjorie, teacher at Avonglen school.

WORLD HAPPENINGS
BRIEFLY TOLD

Royal Canadian Mounted Police in all parts of Saskatchewan are carrying on a vigorous campaign to remove firearms from the possession of aliens.

The International peace congress at Warsaw ended its session by strongly emphasizing the conference's appreciation of the Kellogg proposal to outlaw war.

Mining strikes in Manitoba for the first six months of this year reached a record-breaking figure, according to the monthly statement of the Federal Recording Department.

His Majesty King George, is giving up Aberfeldy Castle, which he and his two predecessors, King Edward and Queen Victoria, have had on lease for about eighty years.

A. H. Gee, Ph.D., prominent young Canadian scientist of Toronto and Yale universities, has been appointed assistant professor in the University of California. Dr. Gee is only in his middle twenties.

Negotiations for amalgamation of the Marconi and Eastern Telegraph Companies are reported to be coming to a head and an announcement is expected shortly. It is understood. The negotiations include the government-owned Imperial Radio it is said.

Dr. Duncan Campbell Scott, deputy superintendent general of Indian affairs, has been appointed by order-in-council to be one of the six commissioners of the Northwest Territories, in place of John W. Greenwood, commissioner of Dominion lands, who died some time ago.

A bylaw passed by the Montreal City Council, in 1870, prohibiting unnecessary noises has been involved in court. A firm of local music dealers was fined \$10 and costs for creating unnecessary noises by means of an outside gramophone apparatus.

Market For Alberta Wool

Samples Sent To Japan Were Found Satisfactory

Japan may become one of Alberta's important wool markets. The agricultural department, at Edmonton, has been advised by K. Miyahashi, of Kobe, Japan, that samples of Alberta wool sent to Japan on several occasions some time ago had been inspected and tested and that the results are highly satisfactory.

Mr. Miyahashi says that the Japanese Government intend to import wool of the same quality from this province and that it is likely a number of orders will also be given this year by private firms. Further information is asked for as to how many hundred tons can be supplied.

The possible establishment of trade connections with the Japanese market in wool follows a series of inquiries covering the past year or more.

K. Kanda, director of experimental farms for the Manchurian railway, looked somewhat carefully, on his recent visit here, into the possibility of doing some business in this line, and Capt. T. Kawakami, who spent a month in Alberta last year, was also greatly interested in the question of wool, among other western products for trans-Pacific import.

Hungarians Organize.

The Hungarian Farmers' Association of Saskatchewan was organized with a view to assisting the 16,000 Hungarians now living in this province. Fritz Leisethaker, of Horizon, was elected president. Headquarters of the organization will be in Regina.

W. N. U. 1741

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

(Continued.)

Before leaving for Denmark it was our privilege to lay upon the base of the Cenotaph, in Whitehall, a wreath of poppies in tribute to the Empire's Glorious Dead. We marched from Horseguards Avenue to the Cenotaph, escorted by mounted and foot police. The wreath bore the arms of every Province, and was carried by Mr. William Gault, of Kenney, Manitoba, and Mr. E. P. Augustine, of Alvinston, Ontario, both of whom had lost sons in the war. Recently they held it at the foot of the stone while we stood bare-headed and in silence. This was our most precious duty, our proudest task, the memory of which, whatever else in this tour may be forgotten, can never fade.

We had time before continuing for lunch to see the House of Parliament and Westminster Abbey. One of the most striking features of the beautiful Parliament Buildings is the clock tower, known as Big Ben. Above the royal entrance is said to be the loftiest square tower in existence. The site of the Houses of Parliament was occupied by an ancient palace which from Edward the Confessor to Henry VIII, was the chief London residence of the reigning sovereigns. The present buildings date from between 1840 and 1850 and cost \$15,000,000. They cover eight acres and contain 1,100 rooms and two miles of passages.

We passed through both Houses. The House of Lords is much more ornate than the House of Commons. At one end are the thrones of the King and Queen, and at the other end the state chair of the Prince of Wales. In the Commons we were shown the Speaker's chair, and placed occupied by Mr. Balfour, Sir Churchill, Mr. Ramsay MacDonald, Mr. Lloyd George and other Front Benchers of the three parties.

Visiting the Hall of Mankind, from William Rufus, is particularly memorable as having been the scene of the trials of Sir William Wallace, Charles I., Warren Hastings, and the Seven Bishops. We saw the brass plates marking the spot where the king died during his trial, and also where the bodies of Edward VII. and William Edward Gladstone lay in state.

There is no nobler building, nor one that visitors from overseas could desire more to see than Westminster Abbey. It is built in the form of a cross, 513 feet in length and 250 feet wide across the transepts. Every English King since Harold has been crowned in Westminster Abbey. The mortal remains of kings, soldiers, sailors, statesmen, poets and illustrious men of letters lie in the vaults beneath its flagstones, and it contains the grave of the Unknown Warrior. Here, too, in soil brought from the battlefields.

The beauty of the Abbey, no less than its historical associations, filled us with wonder and awe. The Chapel of Henry VIII, forming the eastern end, is the finest example in the land of the Tudor style of architecture. A superb fan tracery vaulting of matchless beauty is its crowning glory. Within the grey walls of the Chapter House, an octagonal room of noble proportions, the House of Commons was born more than 500 years ago. Near the Chapter House is the Chapel of the Pyx with the seven-locked door where the king's treasure used to be kept, and on the door human skin still adhering affords gruesome evidence of the days when punishment was not so light as now. The Chapel of Edward the Confessor we saw the Coronation Chair and Stone of Scone, said to have been the Coronation Stone of Scottish Kings from time immemorial, but carried off by Edward I. in 1297. There the tombs of five kings and six queens in this chapel and the mutilated shrine of Edward the Confessor, erected by Henry III. in 1269, originally a golden shrine decorated with jewels and golden images of the saints. Queen Elizabeth and her sister Mary lie side by side in the north aisle of the Henry VIII Chapel.

Little did we think as we gazed at the tombs of the great, that before we returned to Denmark, there would be brought into the Abbey the body of the Empire's best beloved soldier, or that in Scotland we should lay our humble tribute on his tomb.

Our four days itinerary in London completed, we left in the evening for Harwich to embark on the motor ship "Jylland," pronounced mercifully not as it is spelt but as "Yoeland." Again fortune favoured us for in the spiciest of epic and span ships we had a perfect crossing over the usually ruffled North Sea. No time was lost at Harwich, for before 11 p.m. we were in our pulman berths en route for Copenhagen, most of us too sleepy to hear the train move on and off the rail ferries as we crossed the Great and Little Belts which interrupt the journey. By eight a.m. we were settled in our new quarters, the Hotel Compagnie, seeing that spice of adventure which seems inseparable from a foreign land.

But we did not feel foreign long in Denmark. The keenness and dryness of the air reminded us of Western Canada. Here too was a northern people who appreciated slaves! Nevertheless we were not prepared for the welcome, the hospitable welcome Mr. Hogabroholm, secretary of the General Agricultural Council, tendered us on the Council's behalf, nor for the frank discussion on Danish agriculture which took place, followed to our astonishment, by the presentation of the printed statistics on every department of Danish agriculture. But the frankness and fearlessness of this proceeding were explained. "We are today looking forward to a still keener competition on the world market, but, being as we are, we are looking for the old Vikings, we are looking for the

PRINCESS ELIZABETH
Britain's most popular little lady Princess Elizabeth, daughter of their Royal Highnesses the Duke and Duchess of York.

struggle with joy, and today are glad to shake hands with an able and first class competitor." And we Canadians cheered to a man and woman!

Other interesting features of the meeting were a history of co-operation, questions that were answered by the leading agricultural professors in Denmark, and the vote of thanks proposed in Danish by Mr. Christensen, the only Danish born Canadian in the party.

In the afternoon we had the pleasure of viewing Amalienborg Palace, the residence of the Danish Royal Family, Christiansborg Castle and other interesting buildings which tell the story of Denmark's gallant history. Even then we did not forget the business aspect of our tour, for the afternoon was ended by an inspection of the Milk Distributing Depot, Copenhagen.

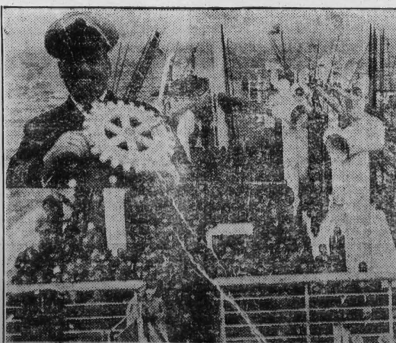

(To Be Continued.)

Western Farmers Are Skilled Operators

Modern Machinery Has Reduced Labor to a Minimum

From a review of agricultural conditions in Western Canada, published by Agricultural and Industrial Progress in Canada, it appears that the western farmer today has developed into a unique figure, far removed from the older conception of the agriculturist. That idea pictured him as a man mighty of brawn and sinew who wrested riches from the soil by large expenditure of muscular toil. Now, the world is told, in the great prairie expanses actual manual labor has been reduced to a minimum, indeed almost eliminated. The farmer of today is a skilled operative and executive, among other things, directing a series of mechanical contrivances that perform all the hard work for him. To this observer and reviewer, no more progressive agricultural territory than Western Canada can be found anywhere, and the progress is constant. Even though the utmost in method and device may seem to have been attained, change is ceaseless because of the immediate adoption of new machinery developed and calculated to carry out farming operations more efficiently and expeditiously.

DELEGATION OF ROTARIANS

Here is the largest delegation of Rotarians ever to leave Europe for the North American continent, and who chose to travel by the St. Lawrence route and through Canada to attend the 19th Rotary International Convention at Minneapolis. There were 226 in the party, and they represented 14 nations. Inset is Capt. E. F. Funnets, commander of the White Star liner "Albatross" holding a China Rotary wheel presented to him by Rotarians from Czechoslovakia, as a memento of the voyage. The photograph was taken on the Albatross on which the delegation travelled.

Tragedy Of the Arctic

Eskimo Mother Perishes In Attempt To Save Children From Drowning

A tragedy of the Arctic in which an Eskimo mother sacrificed her life in a vain attempt to save three of her children from drowning was described by Captain Burgess, of the steamer Ungava, just back from a cruise along the Labrador coast.

The accident occurred near Igloet. An Eskimo boy and his two sisters were fishing at the edge of the ice when a large floe broke away and drifted out to sea with the helpless children.

The mother saw the predicament of her children just as the assistant current caught the drifting floe and overturned it. The hardy children managed to keep their heads above water by clinging to the ice while their mother launched a leaky boat, the only one available, and with a wooden tub to bale out to the rescue.

In the face of almost insurmountable difficulties the heroic mother took the children from the ice water and started for shore, forced to bawl constantly to keep the fragile craft afloat.

Just as safety was almost assured the wooden tub, held by only one loop at the bottom, fell to pieces in the hands of the bawling mother before they could reach shallow water the craft sank beneath them. All were drowned.

World Winners Meet At Quebec

Gathering Of Champion Wheat Growers From Western Provinces

Three distinguished world winners recently met in conference in Quebec City. They are J. C. Mitchell, of Dubinda, Saskatchewan, twice winner of the world's grand champion ship for wheat at the Chicago International Livestock, Hay and Grain Show; Herman Treile, of Peace River, Alberta, winner of world's champion ship for both wheat and oats at the Chicago International in 1926; and Major H. G. L. Strange, of Penn, Alberta, winner of the world's wheat championship in Chicago 1923.

The occasion of their meeting was the annual convention of the Canadian Seed Growers' Association, a voluntary organization by Canadian growers to improve the grade and maintain high standards of quality in Canadian cereal crops. This is accomplished both by individual effort and by legislation regarding the marketing of seed and inspection to guarantee purity, freedom from disease, and high yielding qualities.

Major Strange was re-elected President of the Association, and Winnipeg was selected as the next meeting place.

Another Aid To Longevity

Walk Pigeon-Tot and Live Longer Says Doctor

Don't blame all your ills on your teeth—the trouble may be your toes. Dr. W. Lee Austin, Dallas, Tex., podiatrist, attending the convention of the Southern Association of Chiropodists, at Oklahoma City, says persons who walk pigeon-toed may live to be a hundred.

"One-step in six is saved in walking slightly pigeon-toed because one rises higher on his feet and consequently takes longer strides," Dr. Austin explained. "Pointing the toes outward causes the body to be thrown out of alignment, thus affecting the hip bone and the spine."

Spinal trouble means worry and disruption of the nervous system and upset nerves lead to indigestion. The history of the world might have been changed if the Germans had substituted the "pigeon walk" for the "goose step" in their march on Paris, the doctor suggested.

Erecting Country Elevators

A Busy Season Ahead In Constructing Grain Elevators In Alberta

This summer will witness a great deal of activity on the part of the grain companies as well as the Wheat Pool in the construction of elevators at country points in Alberta, to take care of the larger harvests which are expected. Another company which has just announced its intention to enter on a construction program is the Gillespie Grain Company. According to John Gillespie, president, the firm plans to erect six new elevators each with a capacity of 10,000 bushels.

Good For Paving Purposes

By means of actual tests in road construction it has been definitely established that the bituminous sands of Northern Alberta can be successfully employed for paving purposes. As the present supply of these sands is practically unlimited, their presence and use appear to have solved the problem of permanent paving and road construction in the western provinces.

Big Power Development

Development Of 30,000 Horsepower On Churchill River Is Promised

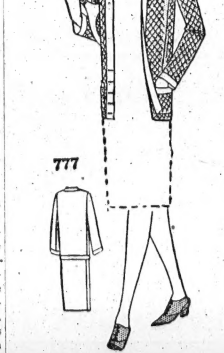

Initial development of 30,000 horsepower at Island Falls, on the Churchill River, is promised in an announcement made by the Churchill River Power Co. Ltd., a company allied with the Whitney interests in developing the Flin Flon mining properties and which supply power to the Flin Flon.

While the initial development is not on the scale of some of the bigger power projects on the continent, even in its first stages, the power plant at Island Falls will be far larger than any now existing in Saskatchewan.

At present Regina has the largest power plant in Saskatchewan, with a capacity of 26,500 horsepower. The one to be built at Island Falls, even at the start, could supply any two cities in Saskatchewan with all power needs and could supply Moose Jaw, North Battleford, Prince Albert and Saskatoon. The 30,000 initial horsepower will represent 21,000 kilowatts.

Under terms imposed by the Saskatchewan government, the federal government, having referred the proposition, the Churchill River Power company must reserve one-sixth of the total power developed for use of the public in Saskatchewan and sell that reserve to the public consumer at as low a cost as charged any company for like use as the reserve power must be supplied as and when required.

The Churchill River Power Company now has a registered office in Regina and from that office has issued an official warning that lands in the vicinity will be flooded and that protests, if any, should be filed on or before July 16, noon.

Phone No. 2.

Main Street

Miss Cole and Miss Elsie Cole have been in Edmonton for a few days. Mr. Jas. Fenton was in Edmonton the first of the week.

Mr. Weise of Viking was in Irma this week.

Mr. and Mrs. J. M. Orr, of Jarrow, left Saturday for a two weeks trip by motor to Chilliwack, B.C.

Mrs. W. O. Conrad of Portland, Oregon, is visiting her brother, Mr. Chas. Wilbraham.

Mr. R. W. Maguire left Tuesday for Derwent, after spending his vacation with his family at Irma.

Mr. J. B. Gulbraa returned Tuesday after spending a few days at Saskatoon.

Mr. and Mrs. M. T. Knudson and Mr. and Mrs. J. Erickson motored to Banff, the first of the week.

A picnic is being held three miles north east of Silver Lake school, Friday July 27th. Any who can come will be welcome.

Mrs. W. Fast and Mrs. H. Thielmann, of Selkirk, North Dakota, were recent visitors at the F. C. Weiss home.

Miss Margaret Skoke is spending a couple of weeks with Mrs. Soniff, while Mr. Soniff is with the extra guard near Edmonton.

Mr. R. J. Tate has moved into his new house on Main Street. Mr. and Mrs. Tate celebrated the tenth anniversary of their wedding by moving into their new home.

Oscar Steffensen, Mr. and Mrs. F. C. Weise, Arthur Peterson, Carl Larsen, Mrs. Soniff and children and Mr. and Mrs. L. Sather, took the special train to Edmonton Thursday morning.

Owing to the Goose Creek Fair being held on August 8th the Valley Spring U.F.A. and the Valley U.F.W. A. joint picnic will be held on Wednesday, July 25th at Pendleton's Lake, south of Jarrow.

Mr. S. K. Kirkpatrick has purchased the North half of Section 5, township 46, range 8, about 5 miles north east of Irma, at a consideration of \$18.00 per acre.

Miss I. M. Morton and Mrs. F. W. Higginson motored to Banff last week end. They went by Ponoka and were accompanied by Mrs. Higginson's son Eric, who has a position in Ponoka for his vacation.

Mr. and Mrs. Charles Peterson left Tuesday after spending two weeks with friends and relatives in the Irma district. They intend to return to California after motoring through Glacier National Park and some of the eastern states.

Advice from the back seat of a car does not teach one to drive well. That comes only with experience. Gaining experience is equally essential to useful Christian living. Consider it with a sinking buoy of Cereche hirs. Jalb one of our classes Sunday, July 22nd at 11 a.m. at Irma United Church. Did you read the church news?

Mr. J. G. Clark, S.S.B. Supervisor, of Wainwright desires to get into touch with any farmers who might be able to use one of the boys that the department is trying to place. These boys are all British boys who have been sent to Alberta under what is known as the Boys in Training, and all of them have had some training in farm work before being sent to Alberta.

Mr. E. E. Mayer has sold over 100 acres of choice farming land lying north east of Irma, to the Mid West Development and Finance Corporation Limited at a price around \$200,000. The deal was completed by Whyte & Co. of Edmonton who have been negotiating for the tract for some time.

Mr. E. L. Cork, Jeweler and Optician, of Wainwright, intends making weekly visits to Irma, for the accommodation of his many customers in the Irma district. Mr. Cork will be in Irma each Thursday and will occupy Dr. Courcier's office till a more suitable building is available. Anyone wishing to have their eyes tested and glasses fitted, or having jewelry that needs repairing, will find Mr. Cork, reasonable in his prices and entirely reliable.

Farmers from the Albert and Orindale district intend motoring to Vermilion to inspect the Provincial Experimental Farm at that point, on July 25th. The different experiments being conducted at the experimental farm are at their best at this time of the year and a profitable day will be spent by any who can spare the time to make the trip. The party intend leaving the Albert School around 9 A.M. and any others wishing to make the trip will be welcome to accompany them.

TENDERS WANTED

Tenders wanted for painting Silver Lane School, two coats on outside. Applicant to supply material. Tenders close July 31st. Painting to be completed in August.

Lowest or any tender not necessarily accepted.

—R. J. Bronsen, Secretary, Hardisty, Alta.

Orangemen Had a Joyous Day

The Alexander County Loyal Orange Lodges celebrated the grand and glorious 12th of July at Irma.

Judging it from the beautiful sunny day, the attendance, the speaking, the sports, the finances, and the meals supplied by the Ladies Aid of the Irma United Church, the day was a decided success.

As early as two o'clock in the morning the drums beat Peter Dick, Peter Dick, as the rally call at Ribstone, Pleasant Valley and Edgerton.

From these lodges a goodly number boarded the Confederation train for Irma. They brought along their music, regalia and banners. Others journeyed by motor.

The train arrived at Irma in time to awaken its sleepy citizens by the sound of the drums beating for the Protestant Boys and "The British Grenadiers."

The Orangemen were met at the station by members of the Order from Irma and escorted to the lodge room headed by R. Wor. M. M. K. McLeod with the Union Jack. Here an initiation was put on. Wor. M. Bro. Jas. Fenton, after opening lodge, asked the County Master Wor. Bro. T. H. Smith to preside, who in turn asked P.E.C.M. Bro. M. Linderoth to conduct the initiation, who called upon Bro. Clasper, county secretary to give the secret work.

After the initiation the procession consisting of the four lodges and members from ladies and other lodges formed and marched through Main street to the Exhibition Grounds where dinner was served by the Irma Ladies Aid.

After dinner the drums sounded the rally for the speaking, when Bro. T. H. Smith, perhaps the oldest Orangeman on the grounds, told why he continued to be an Orangeman and called upon the younger to uphold the Banner of Protestantism.

Rev. Norman Whitmore, of Wainwright, a best corner in our midst spoke of the benefits of the Order. The Rev. Dr. Dodds who had come all the way from Bonnyville laid before the audience some of the problems the nation must face and called upon the Orangemen to be true to the Christian and Protestant principles and quit themselves like men.

After the speech making, the Rev. Dr. Dodds, Rev. Norman Whitmore and J. Dempsey judged the music and the banners and awarded the prize to the Ribstone lodge for the life and drum band, and to the Irma lodge for the banner. Pleasant Valley had a beautiful banner and it was well artistically carried, but the judges took into consideration how the banner represented the Association and gave the prize to Irma because it had the open bible surmounted by the Crown.

Six games of baseball, races, jumping and other sports filled the day to overflowing. The baseball tournament was the chief attraction of the day. Six teams participated and first money was won by Viking. In the first game of the day Viking defeated Jarrow 5 to 3. In the second game Irma Old Timers slugged hard and defeated Rockyford 13 to 2. The game between Fabyan and Irma intermediates was a fairly good game, ending in an 11 to 9 win for the home team. In the semi finals Viking handed Irma Old Timers a 14 to 0 walloping. The final was won by Viking in a snappy five inning game 5 to 3. Jones of Viking umpired all the games. Children's athletic events were also held during the day.

AVONDALE NEWS

Miss Maide and Vivienne Sheddin of Edmonton are spending their holidays with the Allen and Chase families.

The Avondale U.F.W.A. met at the Ford home in honor of Mrs. Cassars 70th birthday. Rool call was answered by "Whom I first loved and why," which brought forth many heartfelt reminiscences of childhood days and mother. The visiting ladies served a delicious lunch and Mrs. Cassars received many useful gifts. A most enjoyable afternoon was spent.

Mr. and Mrs. Haun were Wainwright visitors Monday.

Two cars of Mr. Overbo's relatives motored to Paschenale and Avonien to spend the day at Mr. Overbo's appointments. They returned to Jarrow in the evening.

The next meeting of Avondale U.F.W.A. will be with Mrs. McCreadie on July 28th at 2 p.m.

The young lady of Mr. and Mrs. Hudson has been ill the past week.

Several from Paschenale and Avonien attended the farmers convention at Wainwright on Monday.

Quite a large number of farmers and business men from the Irma district have been attending the Edmonton fair this week.

Dresses \$1.00

Liden's Limited**JOINING---the Wheat Pool Is Good Business**

A Toronto Business Man, Owner of Alberta Farm Land, Says He Would Not Think of Staying Out of the Alberta Wheat Pool.

J. T. Todd, general manager of the J. T. Todd Lumber Company, Toronto, Ontario, is the owner of a large tract of land in the Crowfoot district in Alberta. He is a staunch member of the Alberta Wheat Pool. In fact, so interested is Mr. Todd in the Pool's development that he is endeavoring to persuade non-Pool neighbors to join the organization.

In a recent letter to a neighbor at Crowfoot, Mr. Todd says:

"I have often wondered if you had joined the Wheat Pool. If you have not, I believe if you will consider this matter seriously you will find it is much to your interest to be a member of the Pool. As you know the Pool is only the farmer in business for himself, and the more support the Pool has the better it is going to do for all of us. It is simply a cold-blooded proposition so far as we are concerned and we, like everyone else in business, want to get as much for our labor and wheat as we can. This is a day of co-operation and not only the farmers are doing this but the largest industries, such as automobile and steel, are doing the same. The people in the steel and automobile business are considered to be the brainiest in the world and they are only following the lead which the farmers have pointed out to them during the last five years. Stores are also doing the same."

"I believe if you will consider this matter from your own best interest and the best interests of the community and farmers at large you will decide that YOU CANNOT AFFORD NOT TO BE A POOL MEMBER. I would not think of being out of the Pool myself and I just purchased 320 more acres of land this spring, and as you know, 200 acres of that is now broken and will be in crop next year. All of my land is in the Pool, and in fact, if I had ten times as much land as I have it could be handled in no other way than through the Pool."

"I would like to see you and all the other fellows in the Crowfoot district members of the Pool. If enough would come in we could have an elevator at Crowfoot and that is what we want in time. I believe that with the way the movement is growing we will eventually have it."
